

'Lowest monthly price with no upfront cost compared to all major networks'

We have compared our Swap24 pricing with 500MB of data against published standard pricing available directly from competitors selling phones and airtime on pay monthly contracts (either as a pay monthly package where phone and airtime are bundled together, or as separate device and airtime plans), and compared against their minimum committed monthly price with no upfront costs, and with a data allowance.

Competitor pricing includes a mix of data, calls and texts each month. All competitor contracts and loan agreements (as applicable) have a minimum term of 24 months. Sky's interest free loan is repaid over 30 months. Prices shown are for new handsets.

The tables below set out the lowest standard publicly available monthly pricing with no upfront cost from all the major mobile networks: EE, O2, Vodafone, Three, Tesco Mobile, TalkTalk, Talk Mobile, Virgin Media and BT Mobile (includes mobile networks with more than 1% market share, based on Kantar Worldpanel market data (January to March 2017)).

Pricing checked daily, table below updated bi-weekly (last updated 27/06/2017)
