Roaming Charges

When you travel abroad we'll text you information about the roaming charges in the destination you're visiting.

We've also set up a worldwide data roaming spend cap of £45 per month for each SIM so you'll never spend more than you want to on data. If you prefer, you can remove this cap at sky.com/settings.

Calls made to your Sky voicemail from abroad (+44 7488 222000) will be charged at the same rate as calls to UK landlines.

Calls made to Sky Mobile Customer Service from abroad are inclusive only when calling: +44 131 2783778.

Picture messages can only be sent to UK mobile numbers.

There are two different charges for sending a text or picture message while roaming within the EU/EEA. The first charge listed below applies until 14 June 2017 and the second charge listed below applies from 15 June 2017 onwards. Countries this applies to are indicated with an asterisk (e.g. Austria*).

Unfortunately, there may be some rare occasions where our services will not work for you whilst you are abroad. You can check your current service availability in a particular destination before you travel by contacting us on 03442 414141.

Calling other EU/EEA destinations whilst roaming within the EU/EEA

The roaming charges shown above will apply when making a call or sending a message to any destination within the EU/EEA, while calls and messages to destinations outside the EU/EEA will be charged at the local roaming charge + the standard international charge.

Calling other destinations whilst roaming outside of the EU/EEA

Calls and messages to all destinations (aside from the roaming destination and the UK) will be charged at the local roaming charge + the standard international charge.

UK Service Numbers

For calls to chargeable service numbers (starting 084, 087, 09 and 118), the cost of the call will be broken down into two parts:

An **Access Charge** - this part is what Sky charges you for these calls.

	£ per minute
Access Charge	0.45

A **Service Charge** - this is the rest of the call charge. The organisation you're calling decides how much this charge will be and will tell you this.

Both the Access and Service charges make up the total cost of any call to a chargeable service number.

There are four different ways the Service Charge can be calculated. The service number you are calling will fall into a 'charge-band' with a corresponding rate (set out in the tables below).

Charge-bands

A charge-band is assigned to a set of numbers which are charged the same rates.

Charge-bands have codes designated to them e.g. 'Service Charge 1'. Each charge-band is explained in more detail below.

This Tariff Guide shows the calling charges assigned to the charge-bands. For a list showing which numbers are attached to which charge-bands, please refer to the Specialised Numbers Guide at sky.com/specialisednumbers. Use that document in conjunction with this Tariff Guide to find out the cost of a particular call.
